

Cat Scratching Post with Bed

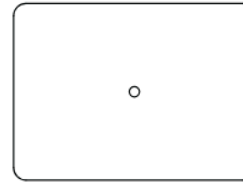

Smart Reminder:

Do not fully tighten the screws during initial assembly. Lightly secure each component first, then tighten all screws after the entire structure is assembled.

A

Base Platform

B

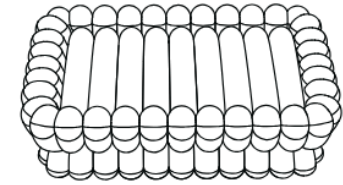

Supporting Board

Supporting Board B is slightly smaller than Base Platform A.
Ensure correct placement during assembly.

C

Post

D

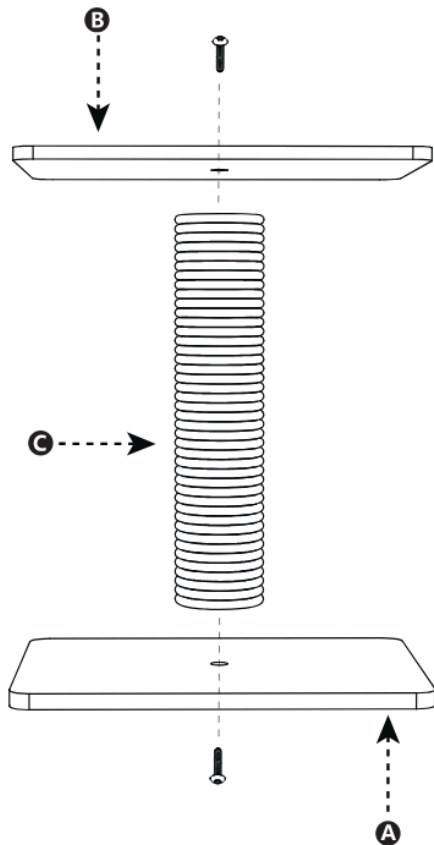

Cushion Bed

E

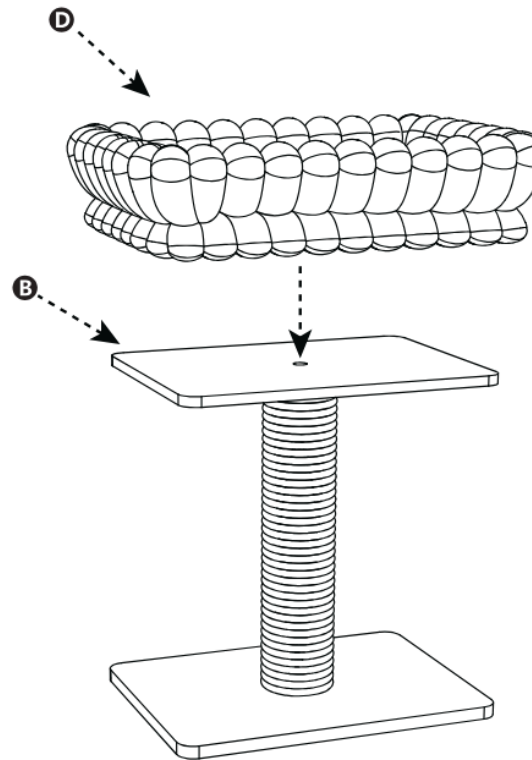

Tassel Toy

- 1** Attach planks A and B to both ends of column C using bolts R. Ensure all parts are aligned before tightening.

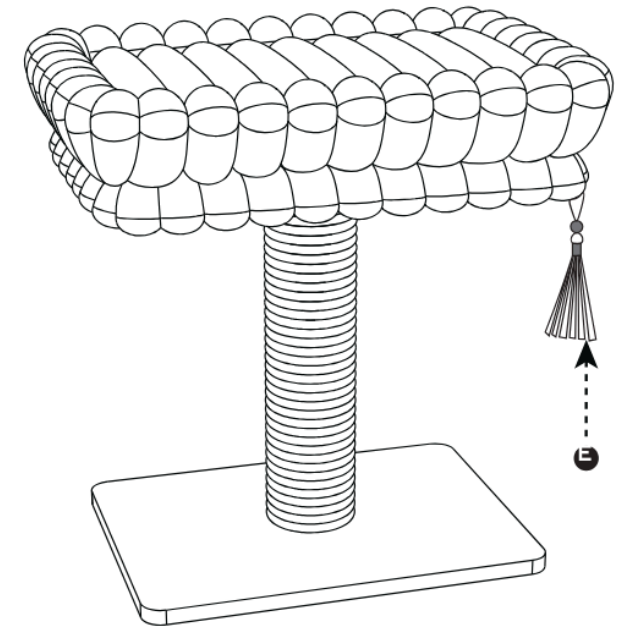

R*2

- 2** Place the cushion D securely on top of the supporting board B, ensuring it is centered and fully wrapped around the edges.

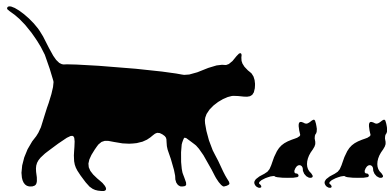

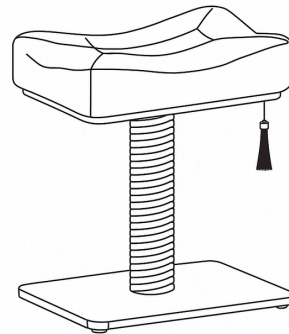

- 3** Attach tassel toy E to the side loop of the nest mat to complete the installation.
